Park Road has a new mobile app!

The app is designed to keep you well informed about your child’s education and life in general at Park Road School, it will also help cut down on paper and ink consumption. We will post school news, events, curriculum information, contacts details etc. on the app and will also use it to send important messages. This will be our only form of contact and it is very important you use this app to find out important information about your child. So whether you are out and about with your phone or at home with access to a tablet you will always have a quick and convenient way to find key information or simply browse.

How to download the app

You can get the app if you have an Apple or Android phone and/or tablet, as most people have these days.

Visit the Apple app store or Google Play on your device and search for “Piota – Deeper Engagement” then type Park Road School in the search bar. See example below.

You may download the app onto multiple devices but will need to install separately on each one.

Key Tips

Start by visiting the settings accessed by the more tile on home page, in channels turn on the year groups you are interested in. The app will then alert you to relevant messages in these categories. Please leave the Urgent alerts category turned on. This is for messages from the school to everyone about urgent matters.

There are no passwords to remember making it easier for parents to use.

If you click on the more tab, you can access forms and surveys, please take a look and send us any updates/information. Please have a good look through the app.

The Alerts tile contains a record of the alert messages you have been sent by the school. The circular counter on the app shows how many unread messages you have.
